Allowable Subject Matter

Claims 1-21 are allowed.

The following is an examiner's statement of reasons for allowance:

The primary reason independent claims 1, 7 and 8 are allowable because the prior record fails to teach or fairly suggest a system or method that includes a server comprising an address manager configured to manage a host address of a destination mobile terminal associated with a routing address of the destination mobile terminal; and an instructor configured to instruct a source router connected to a source mobile terminal via a radio circuit and a destination router connected to the destination mobile terminal via a radio circuit to store the host address of the destination mobile terminal associated with the routing address of the destination mobile terminal.
